

“The *Saturday Review* has just sent me a copy of Miss La Follette’s book. . . . I knew it would be a good book, but I assure you it is so far beyond all my expectations that I can not say enough in praise of it. If I am any judge, it is a truly great book. When one finishes it, there is simply nothing more to say on the subject, as far as I can see.” Albert Jay Nock
